At Scott Oil, We Are Looking Out for Your Bottom Line...

The high cost of fuel oil impacts all of us. As your retail fuel oil dealer, our number one focus is to provide you with the highest quality fuel, at the best price possible. As you know, the cost of heating our homes has risen dramatically over the past year, and the fuel oil market remains volatile. There is, however, some good news.

As a Scott Oil Customer, you benefit from our 60 years experience in the fuel oil business. We know the market and monitor fuel oil pricing continually. You can be confident that we offer our customers competitive prices, while maintaining the high quality service that has become our trademark.

We are dedicated to providing the best goods and services on the North Shore. To that end, we are available 24-hours a day with service performed by the most highly qualified technicians. We offer comprehensive service plans along with heating equipment sales and installation.

We offer a great way to alleviate the cost of high winter season bills with our *SMARTPAY* program. Did you know that 80% of your fuel oil consumption occurs in only 5 months of the year! With *SMARTPAY* you can spread fuel oil payments out over 11 months. As a *SMARTPAY* customer, you receive one monthly statement and you choose the day of the month to make your payment. You receive your prompt payment discount automatically and never pay a finance charge as long as you make your monthly payments. This *SMARTPAY* program is calculated using fuel oil consumption only. All service charges will be billed separately and appear as a non-budget item on your monthly statement.

If you would like to try *SMARTPAY*, or if you would like more information, simply return the cut off portion of this offer in the envelope provided. Or, if you prefer, simply e-mail your request to roberta@scottoil.com (Please include your name, address and phone number). You will receive your first statement in June showing your monthly *SMARTPAY* payments. This figure is subject to change depending on weather conditions, oil usage changes, and fuel oil pricing. We will monitor your *SMARTPAY* plan over the course of the heating season and notify you of any changes made to your *SMARTPAY* account.

If after you have chosen *SMARTPAY* you decide to discontinue this program for any reason, simply make a notation on your statement, and you may resume instant invoicing immediately.

You can relax with *SMARTPAY*. *SMARTPAY* takes the worry out of paying your fuel oil bills.

----- Cut Here -----

_____ Yes, I would like to become a *SMARTPAY* customer. I understand that my account will be reviewed to determine my payments, and this figure will appear on my first statement in JUNE.

_____ Yes, I would like more information on the *SMARTPAY* program. Please contact me at:
